DACLY EDITION: Year, de Utreed in elly
Year, by mail to gard effect
Year, to U.S.R.
Toronte Representative—D. O. McKinson,

KING'S BIRTHDAY

Tomorrow His Majesty King George Fifth celebrates the sixty-fifth anniversary of his birth, and throughout the Empire there will be birth, and throughout the Empire there will be general recognition of the day whether quietly or with demonstrations. His Majesty's recovery from the swere filiness of over a year ago has been expained by the second of the second of the first hardon's and empire's well fare. That illuses brought to the people a realisation of the immense debt they owe the monarch of the British throne. So that toolsy as king and repart of the many millions who populate his vast empire.

Fegata of the miss, analysis of the state of

Frost played a trick on the husbandman, the gardener and the tarner on Saturday more than the property of the same and the same of the sam

NEW DEVICES YET COME.

Toronto today tries out the new device whereby the east and westbound motorists change the street signals by the mere blast of a horn. The device works well in the level to the street well in the level to the street with the level to the street. The last word in mechanism has not been written. There are always improvements.

OIL HEATING

You don't keep the bandcrank out in front...

why be satisfied with less than 1930 LUBRICATION?

The handcrank has practically become a museum relic. Many motor oils are just as out of date. But not Shell Motor Oil. Drivers of modern cars have welcomed Shell Motor Oil because they know it keeps pace with every development in the automobile. Shell Motor Oil is ready now for the car you may buy next year. Shell's low-temperature refining brings it to you rich in all the protective qualities of Nature's best-balanced crude. No wonder that owners of all types of cars are changing to Shell. They insist upon the extra margin of safety-the smooth, trouble-free performance of Shell Motor Oil.

For Smooth, Economical Performance, use both

WORSE BEFORE THE TURN

WORSE REFORE THE TURN

Cordning of June with warmer weather has certainly eliminated all possibility of a drop in the temperature to the danger of the temperature to the danger of the temperature to the danger cannot be used to the second of plants were wiped out and heavy damage caused to produce growers, because many plants cannot be replaced at the attent that the hour before the rise in temperature was the time when the mercury and alcohol in the thermometer fell lowest. Seem as if nature that the hour before the rise in temperature was the time when the mercury and alcohol in the thermometer fell lowest. Seem as if nature has a trick of her own just as humans have; the gloomiest hour is just before the turn for the better. It is true I market. The tomato plant and the tender bean plant seem to occupy the same place in the natural world as humanity's weaknesses when the contractions of the contraction of the

natural world as humanny's weaknesses when the acid test comes.

The old saying that there must always be a frest about the Twenty-fourth of May shows that the oldtimers who watched the weather had summed up conditions rather accurately.

had summed up conditions eather accurately.

CHEERIO

Aline Michaeles "Cheerio", you say, and then Gates of joy swing wide again For a little while:
I am with you where you dwelf in that land where all is well, Your enchanted isle.

"Cheerio". you-cry at morn, aightaway hope and trust are born; Though my plight seemed grave, I am armored should I meet New disaster or defeat, For my, heart grows brave.

Though I wrote with Hilling words
Sweet as songs of mockingbirds,
I could never tell
Half the gladness you have brought
Half the wonders you have wroug
With your kindly spell.

"Cheerio," your message brings Sense of glad, uplifted wings, Through each day. Igo To my tasks with new delight Since you make the morning bright, Gentle Cheerio!

Gentic Cheerio!

A LITTLE GIRLs was knocked down by a motor ear on Front Street Monday. Fortunately the was not seriously injured, Motorista say that children may be found the danger of death or highry is a very real and present one. Seems to me we should have more playgrounds for the children with have more playgrounds for the children with have more playgrounds for the children with have more playground. Garden purposes in the city should be turned into a playground. Chikenan who fave spacious becked a playground. Chikenan who fave spacious becked and avoid the streets as they would a plague.

COMPLAINTS MULTIPLY of pedestrians being menaced by bleycle riders on the foot bridge. There have been several knock downs and many shocks from this habit which should be stopped at once. Why not station a policeman there for a while during the heavy trafic caused by the closing of the lower bridgs.

Incomment of the crossing or the lower transga-1 SAW ONE of those new times the doller bills promoted from ones which are being floated. They are cleverly done but 100x "queer" and if closely scrutinized are detected easily. The prevailing practise of the mob "shoving this queer" is to pick places not too well light-ed. One peculiarly which stands out on the bills is the lack of 8 op Dollars, the bills reading TEX DOLLARS.

LOOKS IF CITY COUNCIL and Hydro Commission are getting ready to give us a Great White Way on Front and Bridge streets. Hope the symptoms are correctly diagnosed.

Johnny has told a falsehood, ond his mother was anxiously talking, with him.
"The Bible says, Johnny," she told him.
"that no one who tells lies, can go to heaven."
"Mama," he asked, "did you ever tell a lie?"
"Mare say I did, my son, when I was very small like you, and did not realize how wicked

amall like you, and the see the see that it well a passe were tell a lies" "Perhaps he might, when he was a little by, but he would not do't in own." hitsopher. "Well." remarked the young to beaven. If there hard soing to be anybody there but God and George Washington." shout her StOck.

Sales read, St. Phone 88.

May 30, 193 Please congratulate

ELECTRICAL CONTRACTORS Frigidaire

PICTORIAL GOLF INSTRUCTIONS (BY H. B. MARTIN)

The long, loose swing quite of-The long, loose awing quite of-ten is responsible for the long drive, built its not the swing of the finished golden, nor the suc-cessful potter. Young golden are their test shock, willing to gumble on keeping the majority of them in the fairway. Experienced play-ers are content to keep the bail struight and with this alm in view they gradually shorters the arch' and mark an attempt to

here the swing under syrics cantrel. The swing need not be short as long as it is compact and well three. The faith of the swing does not up back, as a role, as plug of the cloth is unnecessity, and only goes to prove that there has been a dipping also at the swing. With the compact, well-proved eving there is Billian chance of one bindy in balance, forch, before such as like the swing.

What it means be built by ML aughlin Buick ... Marquette supplies the answer.

I T means that Marquette—a great performer—is built by the producer of a car which outsells every other car in its price class . . . McLaughlin-Buick.

It means that in Marquette is incorporated the sum total of all the skill and experience which McLaughlin-Buick has gained during more than two decades devoted to the manu-

It means that Marquette is created by the same designers engineers and araftsmen who have helped to make Mo Laughlin-Buick the acknowledged leader in its field.

It means that into the making of Marquette have gone all the resources and manufacturing advantages of Mc-Laughlin-Buick, the Fisher Body organization, and General Motors.

It means that in every detail of Marquette's design and construction there is splendid evidence of McLaughlin-Buick thoroughness—McLaughlin-Buick standards of precision—and McLaughlin-Buick deals of craftsmanship.

It means . . . and this is important . . . that Marquette shares the savings in cost of manufacture made possible by McLaughlin-Burck's great volume production; and is, in consequence, able to offer far better value . . . the greatest value, in fact, ever offered in its field.

Ask about the General Motors Owner Service Policy—most complete in the automotive industry; and make use, if you will, of G.M.A.C., General Motors' own deferred payment

SIDELIGHTS

AUTUMN'S KISS

High o'er the purple vapours drift Shading the silver streams, The merry sunbeams gaily sift Adown their golden gleams.

When joyful after Autumn's kiss Transformed the forests stand, Like unto flowers dreamy bliss Beneath Spring's gentle hand.

Thus noble living transforms Life Anew at Autumn's kiss, To mortals braving earthly strife Earnest of sacred bliss.

In joyous loving service spent
Unto the Father, due—
When heaven's reaper justly sent
Harvests the fail-beng few.
ober 1929 — By Teressa Brant.

RIG PRICE SMASH

HRYSLER

\$ 350

The most sweeping price reductions in all Chrysler history are now in effect on the current Chrysler "77" models.

Chrysler "77" prices have been reduced \$200 to \$350 because a new Chrysler model will be introduced in midsummer to take the place of the "77".

Other current Chrysler models-"70", "66" and new Chrysler Sixare being continued without change.

Reductions as large as \$200 to \$350 on so fine a car as the Chrysler "77" will quickly dispose of the available supply-so don't delay. Your present car will be accepted in trade, Chrysler's liberal financing facilities are available.

To Help You Choose!

FOR everyone who plans to build a home, the question of roofing looms large in importance. If you choose haphazardly you may pay a heavy penalty in leaks, weather disfigurement, fire If you choose with care and exercise good state your, reward will be a Brantford Roof of unique charm—a roof that combines rich, vibrant colour harmonits with brant colour harmonies with

To help you make the right choice the Brantford Roofing Company has prepared a fas-cinating series of cards, de-picting in actual colours the popular designs obtainable in Brantford Asphalt Slates.

Blue black and tile red are the dominating colours of "Singapore" which is laid in a staggered design. "Trini-dad" in ripe, rich hues bor-

rowed from the West Indies is the result of combining red and tile red in equal proper-tions.

The harmony of buil, bronze and olive in the "Vienna" treatment will bring warmth and personality to your home.

Old-world charm and colour warmth mingle in the red, tile red and purple design of Mooque in thatched treatment that has been popular since its introduction. "Mandalay" has the ringing colour tones of Kipling's song, but massive in design, it presents an aspect of substantial dignity.

"Cairo" with its colour har monies is like a memory of Egyptian bazzars. "Barcelona" and "Madrid' recal to mind the sunny gardens of old Spain.

And all these Brantford As Slate designs are permanenti and weather resistant.

ON THE HIGHWAYS

ON THE HIGHWAYS

There is an appreciable reduction in the number of motorcars with glaring, headilghts on the highways at present. This is probably due in part to the fac commission and it is undoubtedly in part due to the activity or the highway traffic officers. There remains however, the danger of the one-eyed car which is all too prevalent on the highways. Any algelt on the main highway will bring to light a number of the main single of the one-good car which we have all the content of the main highway will bring to light?

on the main highway will bring to light a num-ber of these cutton is that the likelts go out white the car is in operation and that the driver and occupants do not realise that the car are running one-eyed. However this may be, the fact remains that they are a real meance as they may be token for motorcycles with lamentable — Probably the time will come when there

results.

Probably the time will come when there will be pedestrian paths near the highways. At present walkers dressed in abue or dark clothes are really in danger, according to some motorists who find difficult in spotting them. Some day a law may compel pedestrians to carry a reflector or lamp at the slot.

TRUCKS AND HORSES BANNED

TRUCES AND BURGES DANAEL
Trucks and home drawn welclies are to be probibled the use of Front street while the problem of the p

now a real menace on streets, for they more at a quite different rate of speed from that of motorcars. Action on the part of the council seems unavoidable in the light of the present restrictions on traffic owing to detouring. VISITING PASTOR

BOYS ON BICYCLES

The complaint has often been made that two boys are found on one bleyle, one on the handlebars and the other on the next propelling the vehicle. Occasionally such alghts are seen on the highway to the fear of motorists who dread passing of a bleyle which under such conditions in not quite controlable. It would look as if biffences of this kind will not cease until there is couff prosecution.

She knew gray skies, banked with a sudd

Ladies Of Leisure

The Secret of Poise

ELINOR GLYN tells the women of BELLEVILLE

at she has a screne poise that com-ds admiration; men instinctively stop ok at her, are proud to be seen with her.

She told me once that she deliberately builds up in herself a consciousness of femi-sine charm. She realizes that she berself but first be convinced of her own dainty emininity before she can impress others.

Wisely, she begins with her clothes.

One of the surest ways to gain perfect omfidence in one's dainty, lovely femininity he explains, is to have every bit of lingeric s delicate, colourful, charming as possible

Keep Colours Lovely
But, women tell mr, it is a official to wear
ovely underthings always and keep their
soling as wonderful, as relocated, as when
there were new. Frequent washing (and we
have the new. Frequent washing (and we
observed to the second of the graness.)
To this I reply, that is too often the case,
the colours and charm out of the garment
to the property of the colours of the colours and charm so not of the garment
up to the colours and charm to the colours and charm to be a five work
to the colours of the colours of the colours of the colours
to the colours of the colours of the colours
than the colours of the colours of the colours
than the colours of the colours of the colours
than the colours
than

too—so with your draperies, linens, slip covers. Ordinary soaps will take away some of the colour pigment, whereas Lu preserves colours and textures in their

ide in a charming home gives you ise, too, and here Lux is also an in-luable aid. As in the case of your inty lingerie—frocks, blouses, scarfs.

it's Safe in Water

It's Safe in LUX!

INTERNATIONAL PAPER and POWER COMPANY

Owned, including subsidiaries, by 79,000 shareholders in Canada, Great Britain and the United States. The Company's securities are listed and traded in on the Montreel and New York Stock Exchanges.

EWSPRINT, HYDRO-ELECTRIC POWERin less than a quarter century these have taken commanding positions in Canada's development of her natural resources.

Twenty years ago, Canada's newsprint production was 160,000 tons; last year, her mills produced more than seventeen times that amount-2,728,827 tons.

Twenty years have seen hydro-electric development in Canada advance with giant strides. Projects now in operation or under construction represent a capacity of 6,000,000 horsepower-1910 rapacity has been multiplied six times.

International Paper and Power Company, established in Canada thirty-two years ago, has taken a substantial part in the development of these two industries.

From 40,000 tons in 1922, International's Canadian newsprint production has grown to nearly 400,000 tons in 1929, and the Company now is the third largest producer in the Dominion.

Until 1925, International's use of water power in Canada was limited to Company operations; today, its hydro-electric plants on the Ottawa, the Gatineau, the Saint John and other rivers serve Canadian industry with 622,600 horsepower-more than the total installed capacity on the American side of Niagara Falls-and the Company is the third largest producer of power in the Dominion.

What International Paper and Power Company is, who owns it, what are its policies and where and of what nature its undertakings, will be told in a series of advertisements, of which this is the first.

The Puzzle of Dreams

By Lonig R. Blech, M. D., Ph. D. Pamous Authority on Health and

amous Authority on Health and Psychology

As much, if not more, has been written about dreams than upon any ther single subject.

Dreams have always been a pursle.

Dreams have always interested peo-les-wrin as far back as the time of be Exposians.

Dreams as as well as the time of the Exposians.

Definition one early accesses are conposed to a lab time to be a Expirition.

Drawns are so vided and real, yet and the expirition of the expirate has illustrated has income for the expirated of the expirition of the expirition

Like prisoners, let us say, these de tires are ferever trying to get out and assert themselves. A hay waggon passes; the prisoner sees his oppor-tunity; he hides under the hay and

excepts. So with dreams. Your suppressions may against buried for years, accidentally you see or hear something that impresse, you, and that night unfilled wishes appear in the disquise of that semething that struck you so feather.

SALADA quality will always be the finest you can buy

The race for health...

It is easily won by the man who eats the foods that furnish real nutriment and do not tax the digestion. Shredded Wheat with milk not only tastes good, but is good. The crisp, flavory shreds of baked whole wheat are so appetizing and strengthening. Combines the "roughage" you need with the proteins. and mineral salts. Delicious for any meal with your favorite fruit.

IT is true that all tires are not alike. And it's obvious that all tires are not the same value. That's why we sell Goodycars only.

We've watched Goodycar Tires in use for a good many years. We're satisfied that they give the longest mileage. We're sold on Supertwist and the All-Weather Tread. And Goodyear gives us a complete line of tires to meet all needs.

It's true we don't make quite as much money per, tire. But we sell a lot more tires.

We have your size and type.

Safeguard Your Children's Health

No General lectric Refrigerato Owner has ever spent a Cent for Service

Give them the protection of a General Electric Refrigerator

GOOD health is the most pre cious asset of your children and you can safeguard it by keeping their food always fresh and wholesome in a General Electric Refrigerator.

For a few cents a day a General Electric Refrigerator preserves milk and other perishable foods safely below the 50-degree dange point. It removes the health ce of slightly-spoiled eatables. And it makes possible an infinite variety of frozen delleacies that both you and the children will enjoy.

The General Electric Refrigerator is so trouble-free in operation that It never even requires oiling . . . so simplified that there are no fans, belts or stuffing boxes to get out of order. All the mechanism is Sealed in Strel . . . proof forever against the destructive effects of air, dirt and moisture.

It is a significant fact that the General Electric Refrigerator is today the fastest-selling of all automatie refrigerators. Let us show you the reasons for this great public preference. ER-110-G

GIANT WINNING STREAK ENDED

League Heading Robins Defea Cincinnati Reds by

NO. YOUN, June 11.—The Pillstin, Prairie singued the New York. Clearly winning rates of nine straight games prairied y with a 10 to 7 victory in the second sum of the second

iriple.

Fred Pitzsimmons lasted less than an training when six hits and a walk score. I five runs in the firt, Bartell's ninth linning catch of Terry's /Thy in deep left was the fielding feature.

PHILADELPHIA, June 13.—Rain stopped the third game of the Chicago Cubs-Phillies series hero yesterday atternoon at the end of the sixth inn-

a latt ing, and the lood term gathed a 8-to-0 it. decision.

It decision score was 3 to 2. Ray Moss. make

sory was also 2...
Ray Moss, making his first start of
the season, held the Reds to six hits.
The Robins assumed the lead in the
theoretic inning when Jake Flowers,
pinch hit for Deberry, and drove in two
runs with a double. Harry Heimann
hit a homer run in the Reds' akth.
Al Lopes wan yesterday's contest
with a pinch single, in the minth.

whe most precious thing has happened
what I mean, it's positively ravishing—
towney's have put out a new box of
really dainty chocolates—they're the most scrumptious things, only one bite to a piece, and the unbelievable number of 80 pieces in a pound box. I simply must have a couple of boxes for my party tomorrow afternoon. I'm not going to have the girls spoiling their dresses and the table covers with big, soft creams or melted chocolate at my party—it's so ruinous to the cards, too. So, be a treasure, and bring me two boxes from the Lowney dealer when you come up tomorrow—they are called Eighty Dainty Chocolates—and only

The famous Lowney Chocolates including 'Eighty Dainty' are for sale by E. F. DICKENS & SON., 215 F RONT STREET.

Down min the super-intensigence or a constraint of the property. The has more than that. He's a per-chelogist, He has no panders quality that is gritting to be as rare as the word that expresses in. He is product, He makes certain he is right; then he jone shace. He is a lesser of an and good-jup to the hor—whereas you'd think the damped old Quaker would have whooped with clight to see the last of him—seeling as how Tons in my now general manager. Avoid GUM-STUCK VALVES!

KOOLMOTOR GASOLENE

the gas from which harmful gum has been removed

MAGINE the fight

that goes on in your engine when your valves are stuck with sticky, gummy, clinging deposits.

Gasolenes containing an excessive amount of gum cause that condition. When you step on the gas for more power your eagine labors-your valves struggle to get . free-you wince at the faulty response.

Why tolerate this sluggish performance? Change to Koolmotor Gasolene-the gas from which harmful gum has been removed. Cities Service experts put this superior motor fuel through extra proc esses, exercise greater care, to relieve you of gum-stuck valves. The Cities Service mini-gum process reduces the gum content to a harmless minimum.

Keep your valves clean - help them deliver their best-insure maximum power at all times-by keeping your tank full of Koolmotor Gasolene-the gas that is free from harmful gum.

Cities Service Radio Con-certs, 8 P.M., Eastern Daylight Time, C.K.G.W. and N.B.C. coast-to-coast network—33 stations.

A time to keep Money in Circulation

Too much emphasis is sometimes placed on what "big business" is doing. Lumbering, railroading, manufacturing, banking—these do not make sperity. They reflect it.

It is the massed effect of the day-to-day ex-penditures of the individual that keeps money circulating and the wheels of business turning.

Therefore, let us "buy and sell—build—go ahead—plan and work," each in our own way as vigorously as we know how. That is the best way to hasten the return of prosperity for all.

"Of all countries in the world, Canada is the "Of all countries in the world, Canada is the best place to live in at the present time," said Lord Willingdon in a recent address at Ottawa, and he added: "no country has a brighter future and in a very few years the Dominion will go forward to increased prosperity."

The Seven Rules for Safe Driving You must observe them and ALL

other precautions all the time

- Have your car in perfect mechanical condition—particularly BRAKES,
 STEERING GEAR and HEADLIGHTS.
- GIVE YOUR UNDIVIDED ATTENTION TO YOUR DRIVING. In passing traffic, be sure there is a place for you in the traffic line shead.
- Never attempt to pass on curves or steep grades.
- 4 In entering main streets or highways, or in approaching a railway or where a full view of the track is obscured—STOP and LOOK.
- When other vehicles try to pass you-LET THEM PASS.
- 6 When making a right turn, keep to the right of the highway; when making a left turn, keep to the centre. 7 Always SIGNAL before you slow down, stop, or change your coun never BACK UP before ascertaining that the road behind is clear.

Ruilt for Many Thousands of Miles

THE new Ford has been designed and built to give you many thousands of miles of faithful, economical service. Beneath its flashing beauty of line and color-in those vital mechanical parts which you may never see - is a high quality of material and accuracy in manufacturing. The reliability and capable performance of the car, in all weather and under all conditions, make it a particularly good choice for constant use. It stands up under the added strain of bad roads and hard daily service in a way that has always been characteristic of the Ford car. The experience of the passing months and years will increase your satisfaction in its performance and confirm . Your first impression that it is a value far above the price.

COLUMN TO SERVE

THE NEW FORD SPORT COUPE

Unusual Riding Comfort

ONE OF THE fine things about driving the new Ford is the way it takes you over the miles thout steele or fatigue. No matter how long the trip, or rough or devious the highway, you know it will bring you safely, quickly, com-fortably to the journey's end. The restfully tilted seats are generously wide and deeply cushioned. The backs are carefully designed to conform to the curves of the body.

Furthermore, every Ford car is equipped with four Houdaille double-acting hydraulic shock absorbers and special transverse springs. Even had stretches may be taken at a reason-ably fast pace without hard jolts or bumps or uncing. The steel-spoke wheels three-point chassis suspension, torque-tube drive, and low unsprung weight also contribute to the easy-riding comfort of the Ford case,

J.B. Boyce

Six is nowhere more apparent than in the care with which every part, however small, has been brought to perfec tion and protected against wear and tear.

For instance, the springs are not only supple, strong and efficient, but they are enclosed in leather covers. As a result, the grease on the springs is kept free from dire and water. A special Bonderizing process renders fenders and dust apron absolutely impervious to rust. The Lovejoy shock absorbers, front and ear, have solid links . . . enabling

them literally to absorb every road shock. mous cross flow radiator prevents over-

ntilation makes oiling more efficient and economical.

It is the painstaking attenti shown in such features as these that makes the Pontiac Big Six so much finer . . . offering so much more for your oney than other cars in its price class. You owe it to yourself to see, ride in and drive this famous car. Come to our showrooms today. Ask us about the

General Motors Owner Service Policy the most complete in the automotive industry. And use the G.M.A.C. General Motors' own deferred payment plan.

TALK ABOUT, WEEDS

County Consell members had a nice little lecture as they at in their seats in shire hall on Friday. It was an address on weeds, they beard. Weeds do not seem to suggest an interacting thans but Chief Weed Inspetor McLod string them beared to the desired as the pointed out the adranates of sheep in cropping to keep down the weed growth.

SHOOTING REPORTERS

SHOOTING REPORTERS

Tomosto Tedgram has a graphic editorial on the killing of a reporter-in Chicago:
"Al tot of people have been shot in Chicago and the property of the prope

an among his fellows.

Let it not be forgotten that "there is a time to worp and a time to laugh; a time to mourn of a time to adance." Some have so acted in elef lives as if there were no time for laughter and dancing, but life shows them wrong, Laugh-re did anding, but life shows them wrong, Laugh-re but laughter is health-giving, it is a tonic.

so, but laughter is health-giving, it is a tonic.

When up the data north will some day run is a super-highway, the super-highway is a super-highway the front super-highway in the front-for-highway the front super-highway the front super-highway the super-highw

front to the top of Hastings County, motoring parties will turn their eyes to the north and leave the east and west highways for a time. Leve the east and west highways for a time. less and tonic healthy air is a loadstone attract-ing the people of the south. The north is now accessible and its charms draw many but a real highway is a happy thought.

JAMES WHITCOMB RILEY

He didn't write of gods and kings And all such highfalutin't things: But folks and boys and bumblebees And when he talked of Summer, say, The printing smelled of clover hay. And you would see the lary brezze Go nosin't brough the locus trees Around the house where you were born, And bear the old in dinner born.

. He didn't read up Persian tales, Of these bulbuls and nightingales; Or these bulbuls and nightingsies; But went and sat out on the rails And listened to the thrush and wren Cheep in the meadow brambles, when The song of birds was in his pen; The whippoorwill and bobolink Gave music lessons to his ink.

He turned words into wishing rings That made forgotten memories start Tears trickling in your lonely heart And painted signfosts all the way Along the pike to Yesterday.

God must be feeling mighty good To have him 'round (I know I would) A-telling tales of lasy scamps And runaways and dogs and tramps

It don't seem queer to picture him All fussed with golden robes and wings Up there upon an armchair cloud inventing stories for a crowd of fairy goldin, with and eff. When he rode by the other day. There wann't anything to say But 'Good bye, Jin, take heer yourself.'

To canadasa are taking a keen interest in the commonder in Iceland where the one thought the common of the common

Presenting—new features

THE finger of progress has again written Brant-ford Roofing history. New and more beautiful colour harmonies grace the stage New features of Brantford Asphalt Slates claim the spotlight of attention

What are these features?

First—an almost unlimit-ed variety of roofing designs in rich, ripe colour combin-ations that impart beauty and distinction to your home.

Second - Ninety-four to ninety-six per cent supersaturation of asphalt assures permanent protection against teeming rains, driving sleet or melting snow.

Third-Improved manufacture which lessens the susceptibility to climatic

Fourth-Extra resistance to fire and weather is found in the superior mastic coat-

Fifth-Improved laboratory facilities and finer manufacturing equipment have contributed to produce these slates of new excellence.

The basic material—left—of Brantford Asphalt Slates is made in our new mill, one of the finest equipped mills in Canada, and where we are producing the high

product.

If you are building a home, garage, summer cottage, office or any
other type of surrecture and your
Brantford Roofing dealer to go over
your recultements and spirit settinates of cost. Also write the procetion's which gives helpful and interenting advice regarding the proper
type, finish, dealen and colour for
your roof.

ESTERMED CITIZEN GONE

Samuel Curry, a noted hotelman of this county, a horseman, who was known for all the county, a horseman, who was known for all the county, a horseman, who was known for all the county, a horseman, who was known for all the county, a horseman, who was known for all the county, a horseman, and a stream has logarly to the city's interest has passed, the can be compared to the county of the county of

O we take such things for granted All the care and elother and food, On the since the control of the control of the control of the control of the food of the control of the control of the Who is daily fighting battle For the hearth and home and yard. ST By Henry Gillen

He is chief of commissary
For he keeps the larder filled
And the captain of entrenchments
When the garden must be tilled,
And the lonely sentry pacing
When the stars are in the sky
For he has to stride the carpet
When a baby wants to cry.

When a nary wants of the work of the work

Now he never gets a medal,
A citation or reward.
And the only view be boasts of
its his little own; a quad;
It will be to be a supply be its happy,
But shadows ever fall
You will find him there affighting
With his back against the wall.

O we take such things for granted, All the care and clothes and food, And we lavish our affection. On the mother on a feeting of the sold of the comment of the sold of the guard. Who is daily fighting battles. For the hearth and home and yard.

PILLS

Press the palm of your hand down on the Goodyear All-Weather Tread and feel how the deep-cut sharp-edged blocks under pressure grip and pinch the flesh. That is what the Goodyear Tread does on the surface of the road, and why it has superior traction,

THERE are two main parts of a tire—the tread and the carcass. Goodyear Tires excel in both!

There is greater traction in the Goodyear All-Weather Tread. There is greater vitality in the Goodyear Supertwist carcass. 1 What proves this? These two tests.

These advantages in Goodyear Tires cost you no more; yet they are indis-pensable to the ulmost enjoyment of your car. Come

Have us show you on our cord-testing machine the greater stretch in Goodyear Supertwist Cord over standard cord. This extra stretch gives the Goodyear Supertwist Carcass its unmatched vitality, enabling it to withstand road-shocks and continuous flexing.

and brooks are entrywhere. In and brooks are entrywhere, and brooks are entrywhere, and the spacious, remodelled (aumhouse, set far back on a sweep of lawn. It was an increasingly eary party that drove and hiked, played bridge and close of sacce, winding up at the close of each certaing in the long, oak-beauned bridge may be an extended to the contract of the cont

As the week drew to a close, Clare, was complacently ready to congratulate herself on the success of her machinations, Hally and young Winston had been constantly thrown together as a rauly of Jeannette's importunite but nevertained, appropriate of line.

If the surmise as to whether or not anything serious could possibly arise between her friend and her son float dinto Clara's thoughts, she did not harboy it long. Jennette was clever and handsome and sophisticated but she would have welcomed her even less as a daughter-in-law than Mally whose worst faults, ster all, were immaturity and irreprocessibility.

The climax of the houseparty was to be a masquerade and Cliars was entertaining a certain wild hope that on this occasion young Winston would propose to Mally and be accepted. Then she would tell Jeannette her job was over and despatch Jim for a continental tour as a final filp do his edocation.

Ores were the preparations for the big party. Telegrams and telephone calls to city contumning houses kept the wire, hot. Jeanette, who had inlended to go as the Empres Louise, was forced through a dealy in the mails to drive frantically into Pittsfield at the last moment where ahe pickpd up a Brittany peasant woman's

WAKE UP, MOTORISTS

Castrol will Save You 90c on Every Quart of Oil You Buy!

YOUR YEARLY SAVING!

Do you drive 10,000 miles, 20,000 miles or 30,000 miles a year? This chart shows the big saving you can make in a year's time by using Castrol at 50s a quart inateed of an ordinary oil at 55s a quart. Cars of varying crankease capacities are listed below:

Car and Model	Capping Capping	Miles	20,000 24das	Miles :
Anburn · · ·	6	\$27.00	\$54.00	\$81.00
Buick	5	23.00	45.00	68.00
Cadillac	7	31.00	63.00	94.00
Chevrolet	4	18.00	36.00	54.00
Chrysler	6	27.00	L 54.00	81.00
De Soto • • •	5	23.00	45.00	68.00
Dodge		27.00	54.00	81.00
Durant 1	. 5	23.00	45.00	68.00
Erskine	4	18.00	36.00	54.00
Easex	4	18.00	36.00	54.00
Ford (A) - : - 1	. 4	18.00	36.00	54.00
Franklin 3	. 5	23.00	45.00	68.00
Graham Paige		27.00	54.00	81.00
Hudson 6 s -	7 .	31.00	63.00	94.00
Hupmobile !	5	23.00	45.00	68.00
La Salle	. 7	31.00	63.00	94.00
Marmon - : -	. 6	27.00	54.00	81.00
Nash	. 6	27.00	54.00	81.00
Oakland - 1 - 1	. 5	23.00	45.00	68.00
Oldsmobile -	. 5	23.00	45.00	68.00
Packard	. 8	36.00		108.00
Pierce-Arrow 4	. 8	36.00	72.00	108.00
Plymouth -	. 4	18.00	36.00	54.00
Pontiac:	. 5	23.00	45.00	68.00
Reg :	. 6	27.00	54.00	81.00
Roosevelt	. 5	23.00	45.00	68.00
Studebaker - I	. 6	27.00		81.00
Willys-Knight		31.00		94.00

NOTE: The greater the crankcase capacity of your car the greater your saving by adopting THE PROOF of the Saving is in the Using! An ordinary oil gives only 500 miles before a change of oil is necessary. It costs you, say, 35c a quart . . . or \$1.40 per 4-quart filling. Drive 2,000 miles and your oil bill

Castrol gives up to four times the mileage of an ordinary oil . 2.000 MILES Without Change! It costs you 50c a quart . . . or \$2.00 per 4-quart filling. That means you save \$3.60 over an ordinary oil . . . for every 2,000 miles you drive !

in other words, you are 90c in pocket on every quart of Castrol you buy !

Furthermore only half as much Castrol is required for "make-up" as any other lubricant. Castrol slashes your oil bills from start to finish.

IMPORTANT: Castrol is available through reputable garages and Independent Service Stations everywhere It is not authorized to be sold through chain stations operated directly by large gasoline combines. WATCH FOR THE CASTROL SIGN.

You don't keep the bandcrank out in front...

why be satisfied with less than 1930 LUBRICATION?

The handcrank has practically become a museum relic. Many motor oils are just as out of date. But not Shell Motor Oil. Drivers of modern cars have welcomed Shell Motor Oil because they know it keeps pace with every development in the automobile. Shell Motor Oil is ready now for the car you may buy next year. Shell's low-temperature refining brings it to you rich in all the protective qualities of Nature's best-balanced crude. No wonder that owners of all types of cars are changing to Shell. They insist upon the extra margin of safety-the smooth, trouble-free performance of Shell Motor Oil.

For Smooth, Economical Performance, use both

MILLION-DOLLAR-A-YEAR MEN

THE MON-TOLLAR MEN THE MEN THE

Napoleon served more than a million a year for their "firms."

The servestive care as much? Opin-market care the servestive care as much? Opin-market calls the \$1,000,000 salary "unthinkable," 'a holdover, "out of date." Another points out that 'no well-managed corporation to the recipient, and that "creative ability needs to be rewarded generously," so that "every achooliboy may have something to a servestive servestive and the servestive servest

iem." Under such a system of course, a man match: easily receive \$1,00,000 syar, though only a comparatively small part of the income would be in salary. Another famous business man advocates: "library predectermined this of earned profit and dolay away with all but small salaries for the heads of big businesses on the good management of which many and of workers actually descend for their daily

bread.

"Surely-shere is force fa the arguments of these latter witnesses. For they would make sure that the business director received by the state of the state

I had no mood today
To fashion rhythms on a page;
Instead, I saw my poem
In thought—upon a barren spot,
And set about the making.

-Caroline Lawrence Dies.

I know— I saw them on the line last night.

We are told of the good mother who was Historbed over her son who had been in Italy studying for three years.
"I am so afraid he'll get so Italicized he won't come home."

There was a young lady named Astor, Whose clothes fitted her like a plastor When she happened to sneeze She felt a cold breeze I knew she had met with disaster.

FROM OUR CORRESPONDENT

PRION COLDECTONDENT
Quest things sometiming set into print because human beings all make mistakes. Now
and then a newspaper reporter write: copy
parelessly, etc., etc. Here are a few of "best
best" "Touches live wife, man bursted 35 feet,"

Home Owners

Present and Prospective

Here's a message of extreme interest. It tells you of com-forts that await to bring you cess for your building or rebuilding, your repairing or re-modeling. It's a plumbing service that exceeds the ordservice that exceeds the ord-imary in every detail — an ex-pertness that insures finer convenience, finer satisfaction. It means better looking homes throughout — homes that stay new—homes that are easy to hew-homes that are easy to keep up—and inexpensive. Let us show you the advant-ages of real plumbing eng-ineering. Just phone 132 now, and let us discuss plans

THE REO SILENT-SECOND TRANSMISSION

Chicago . New York Boston ... St. Louis

GIVES YOU UNEQUALLED DRIVING CONTROLL

HE BIG thing in motoring nowadays is driving control—the ability to make your car do what you want-and do it instantly. You get unequalled driving control in the Reo Flying Cloud-thanks to the combination of marvelous brakes and the Reo Silent-Second Transmission. This transmission is silent-it's swift-it's sure. With it, you can flash past slow-moving trucks on upgrades, where ordinarily you'd have to crawl in line. On dangerous downgrades you can shift back to second at 40-swiftly. And you get this mission in the Reo Flying Cloud-one of the finest-built and smartestboking cars on the road. Now-before you decide on a new car-discover all that the Reo Flying Cloud offers you

STOP means

The STOP signs on streets and highways are there for your protection. They protect you and all other drivers only to the extent that you obey them.

There's a STOP sign at every intersection of The King's Highway and at intersections of many other main highways and streets. Be sure you heed them. If you do not, and an accident results you are responsible.

You cannot depend on other drivers. While you may have complied with the law by coming to a full stop, you should still exercise care in entering the traffic stream of a main highway.

> The Keystone of Safety on The King's Highway and all other roads and streets

THE ONTARIO INTELLIGENCER

42 Victoria Street W. H. MORTON, Publishe DOES NOT FEEL THIRTY-PIVE

There have been many advices about ag There have been many astroces about age and health, many written by dectors, but this week Ontario had a statement from a sexagenarian, no less known a figure, than the gradial Hon. Howard Ferguson, who has reached the age of aixty, years, Mr. Ferguson was in fine fettle and declared that a man was as old as

fettle and declared that a man was as on me felt and that he did not feet thirty-five years old. That is something for a man who has been though the political turnoil of provincial and even now federal combats.

Mr. Perguson is a notable example of hard work and intense interest failing to cause intrability or ruffle the caim geniality of tem-

work: and intense interest failing to cause irribality or rurfile the calm geniality of term.

For the starts his seventh decade with the recluige of a young man under thirty free. This recommendation of the start has been as a lot of the chief in the next few days.

The statement used to be credited to the late purgoon Dr. Other that men had outlieve chiefordormed. That statement probably never was made for men like the Prenier of Onurin and the control of the statement of the control of the con

ALCHEMY

Transmutation of substances from one to another was a quest of the ancient days and the middle ages. The thought was centuries ahead of discoveries but in the minds of some ahead of dispoyeries had in the minds of some centratin today while ranamatistion is not yet proven, there is a belief that it may in some form or other soon be. Roper Benom and his lik, those medievalists who strought in the labora-centary which reemed for a time to kill the sience of alchemy in which they had believed and in which perhaps after all those, were right. was frowned on and hughed out of court but hose probing the mysteries of the elements today believe they are a gleam of truth in the What immense, importance transmutation What immense. se importance transmutation

old sizhenic view. What immease importance transmutation What immease importance transmutation. What immease world of selence and of invention, for the world or religion and philosophy, for mining, for the metal trades and industries ond for every individual gelax. For the clothes we wear, must be guessed. Alchemy which can grammute one element to another-under certain clients are combination of certain elements in a policy of the combination of certain elements in a policy of the combination of the same elements is harmless. Or combination of the same elements is harmless ever comes into general acceptance. If it does come then there will probably have to be satirely new sets of laws to control the practice to be licensed for they would carry in their discoveries and inventions physical forces and powers which would be no potent an almost toy as compared with the miracles of alchemy.

TIDE TURNING

adian National Railways through their lines of ships and trains are turning tours to the western world. Westerners tour Europe and Asia as the end of all travels. Now the C.N.R. will turn the eyes of Europe on Canada.
This idea was bound to come. Europe has much to teach us but we have something that will interest the European.

Ex-Kaiser Wilhelm had a picnic party broken up through the explosion of one of the craft, the former emperor's ship escaping the

Great Performer

the product of McLaughlin-Buick

A RQUETTE, possessing an engine with the striking example of the supreme value inherent in the field, is a striking example of the supreme value inherent in McLaughlin-Buick craftumanthip and design. For McLaughlin-Buick exceptional qualities of acceleration, power and smoothness are reproduced in Marquette, stamping it definitely as the greatest performer in its moderate price field.

performer in its moderate price field.

Learn why motorists have invested more than \$25,000,000 in Marquette during the brief year singe its introduction. Experience for yourself the parkles are proposed to the performance, its great proposed proposed and its cager responsiveness. And, with it all, enjoy the perfect comfort assured you by such feyture as Lovejoy shock absorbers, (front and pop), and long, resilient, semi-ciliptic springs. springs.

springs. Manquette's high value is possible only because it shares in the manufacturing savings which result from McLaughlin-Buik's agreet volume production. See Marquette. Arrange for a demonstration to day. The G.M.A.C., General Moloro's own deferd payment plan, enables you to enjoy Marquette ownership easily and economically.

Do You Abuse Your Celanese Frocks?

So many Calanese Frocks come to us for rejuvena-tion after being almost hopelessly ruined by home me-thods that we would like to caution owners of dresses of this fashionable material against injuring the fabric through inexperienced treatments.

We have made a thorough study of the cleaning, and, particularly of the finishing of celanese, for it is in this process that so many frocks are ruined at home. To keep your frocks at their loveliest send them to us and we will completely restore them.

THE DOG

I've never known a dog to wag
His tail in glee he did not feel,
Nor quit his cid-time friend to tag
At some more influential heel.
The yellowest cur I ever knew
Was to the boy who loved him true.

I've never known a dog to show
Hall-way devotion to his friend;
To seek a kinder man to know,
Or richer; but unto the end
The humblest dog I ever knew
Was to the man who loved him true.

I've never known a dog to fake Affection for a present gain, A take display of love to make Some little tayor to attain. I've never known a Prince or Spot That seemed to be what he was not.

And I have known a dog to bear Starvation's pangs from day to day Willing the been glad to share the bread and meat along the way. No dog, however mean or rude, Is guilty of ingratitude.

I love being in Tony's company. He enter-tains me by talking about things other men never mention."
"Oh, has he proposed to you?"

He had just stolen a hurried kiss.
"Don't you know any better than that "
she demanded indignantly.
"Sure!" he replied. "But they take more
time."

Mummy: "I hope you were a good boy at the party, and didn't ask for a second piece of cake?"

Tommy: "No, mummy. I took two pleces "Will you be my wife?"
"The idea! Don't be ridiculous."
"Yes, I know it sounds ridiculous but I'm
not so particular as some men are."

They Thought it Would Never Happen

A FLYING EMBER from a nearby burning house set their roof ablaze. Just a cruel prank of the wind and in a twinkling Fire, the Destroyer, had taken an un-shakeable grip.

No matter how careful you are to saleguard your home from the inside it will not help you when your in-flammable roof is threatened flammable roof is threatened by a nearby fire. Turn that over in your mind NOW, when there is still opportu-nity to rid yourself of the old-fashioned fire-inviting roof.

Brantford Asphalt Slates Brantford Asphalt Slates give positive protection against sparks and wind-blown embers. They reduce insurance premiums and protect your house and fami-ly against the ever-present are hazard.

Brantford Roofing designs are renowned for their

some appearance. Their beauty adds immeasurably to the value of your home.

Permanent resistance to the weather under the most varying climatic conditions is another famous feature. Brantford Asphalt Slates will not peel, warp, shrink or bulge, and give years of hardy service.

For summer or town homes—for schools, churches and public buildings, Brant-ford Roofs are equally desir-able—not only for security but also for economy and easy application.

Write for a copy of the booklet "Beauty with Fire Protection". It suggests to you what the proper type, design finish and colour of your roof

SID FLIGHTS

VIMES

From Somerset and Devon,
From Kent and Lincolnshire,
The younger sons come sailing
With hearts of steel and fire

Out of the gray-walled cities, Away from the castled to ners of thatch and roses, Heathery combes and downs,

With neither crown nor penny, But an iron will they came, Heirs of an old tradition And a good old English name

"Plymouth, Exeter, Bristol, Boston, Windsor, Wells." Beloved names of England Rang in their hearts like bells.

They named their rocky farmlands, Their hamlets by the sea, 1 For the mother-towns that bred them In racial loyalty.

"Cambridge, Hartford, Gloucest Hampton, Norwich, Stow." The younger son looked backward And sealed their sonship so.

Now over friendly waters
The old towns, each to each,
Call with the kinship in a name;
One race, one truth, one speech.

-Abbie Farwell Brown, in "Heart of Ne England."

TUESDAY, JUNE 24, 1930 THE EASY WAY

THE EASY WAY

In this age the world, does not care for big words. No one thinks of speaking of an "automoble" mow. It is "auto" or "car." The word aeroplane some years ago proved too lensthy, and now "alraplane." is giving way to "plane." Chamatograph was once trippingly used, mow the word would be a most about the tomas. It is also that the control of the control

pingly used, now the word would be a millstorea about the torque, it is plain move
motion picture.

"It is expected by the picture of the picture
motion picture, and the picture of the picture
of the picture of the picture of the picture
of the picture of the picture of the picture
of the four.

"It he assisted way is the way of the move the
would cut then in four parts and choose one
of the four.

"It would be the picture of the picture of the picture
of the four.

"It would be the picture of the picture of the picture
of the four.

"It would be the picture of the picture
that it is good to be picture of the picture
that I because the feature about a car was
its moving without a horse in front of it. It
might have been called a vue awa not the
chief conveyance. However, if the wagnon
ever had any pretending to he succeived. We also
losing it on the large numbers of waggons in
we when the car was first "discovered." The
word mobily to follow. It can scarcely enunes motor than any ontention with the word
"auto" (self) is a proper. But words do not
always do what might be expected of them. It
should be the picture of the picture of the picture
polyment of the picture of the picture of the picture of the picture
polyment of a "piane" about the deliver of the car." Will
be were be anything but a motorist or chafperhaps plans will continue to be planse
though there may in the future very reason,
also be considered on the picture of the

Canada Life Policyholder

You are entitled to a Service which only commenced when your policy was issued. Do not feel that because you wish to avail yourself of our service it will be nécessary to take on further life insurance. Our whole idea is to be of the greatest possible service to you, freely and without obligation. Do You Know-(1) How the profits from your policy may be arranged to secure the greatest benefit? (2) How your present policies may be made to fit into a program which will cover every financial need?

(3) How you can provide a guaranteed monthly income for your beneficiary?

(4) How you can arrange an income for yourself at age 60 or 65?

These and other vital questions will be nswered upon request.

How to Secure Service

We shall make it a point to give particular attention to requests by mail.

The coupon below is a convenient way to get in touch with the Canada Life for this purpose.

MODERN "SHORT-BOIL" METHOD

for making Jams and Jellies

Saves time and money-Insures perfect jams and jellies

THE Certo "short-hoil" method is now accepted as the most efficient, economical way to make all your jama and jellies. Millions of women use it!

Certo is a pure fruit product—just he natural jellying substance extracted rom fruit in which it is abundant. With Certo, anyone can make perfect

jams and jellies, quickly and easily, from any fruit or fruit jutce, even those delicious fruits that never before would jell.

The caperiences of Mrs. A. and Mrs. B., as outlined on this page, make clear not only the genuine economy, but also the wonderful simplicity and ease of the Certo method.

Mrs. A. had two quart strawherries to be ma jam. After hulling her she was ready to start her jam at nice o'clock.

Mrs. A. added 2 lbs. o to her herries. The sug 70 per lb = 2 lbs. 14c.

quantity of sogget.)

Mrs. B. simply brought her
fruit and sugar to a tumbling
holl, and holded them for a few
minutes, them added ½ hattle
(½ ony) of Certo. The first
favous and colour weng saved
and the second with the second second

The Feminine Viewpoint

How a warm room and "B.O." cost her another admirer

Last mour when they skated together a time the park, she had seemed so attractive. But here in the close, warm room her charm completely vanished. She felt his coolness. The same old story! Why did she always attract men —but never hold them? It had hap-pened so often.

But not now! Today she makes friends and keeps them. For she discovered her fault and the simple way to correct it. Let her tell you how.

"I could have cried when my uncle, who is a physician, warned me in an indirect way about 'B.O.'—body odour, For I thought I had been so careful.

"But, as he explained, our pores are enstantly giving off odour-calling raste—as much as a quart daily: We're

so used to this familiar odour that we do especially in an overheated room with windows closed. And it always

offends.

"So now I've adopted this simple precaution. I wash and bathe with Lifebuoy—and I love it! Lifebuoy makes me feel so gloriously fresh and clean—so sofe. For its rich, creamy antiseptic lather purifies pores—banishes every trace of "B.D."

ishes every trace of *B.O.*"

New complexion beauty

Lifebuoy is a marvellous complexion
soap. Its gentle, searching lather clears
away allimputities from the pores. Dull
skins freshen. Complexions fairly glow
with clear, beathy, radiant beauty.
Its pleasant, extra-dean scent—that
vanishes asyour inse-just tells you Lifebuoy purifies. Adopt Lifebuoy today.

ifebuoy stops body odour-

INTERNATIONAL PAPER and POWER COMPANY

Ouned, including subsidiaries, by 79,000 shareholders in Canada, Great Britain and the United States. The Company's securities are lieted and traded in on the Montreal and New York Stock Exchanges.

NTERNATIONAL PAPER AND POWER COM-PANY is, to a substantial degree, an employee-owned enterprise, ever-increasing holdings of both common and preferred shares by officers, executives, clerks and wage earners evidencing the extent to which they are partners as well as workers in the Company.

Each year, for five years, International has given its employees an opportunity to buy the Company's preferred shares. In the 1929 offering alone, 3,677 employees subscribed for 12,313 shares, while total subscriptions over the five-year period exceed 49,000 shares. In addition to regular dividends on their holdings of the Company's shares, these employee-shareholders in 1930 will receive approximately \$80,000 in bonus

Canadian employees comprise more than a third of all employees holding the Company's Preferred Stock. Over one thousand participated in the 1929 offering, subscrib-ing for 3,546 shares, while total subscrip-tions over the five-year period amount to 13.827 shares

EAST-TO-WEST CROSSING

With the successful east-to-west crossing of the Atlantic Ocean by The Southern Cross, an airship which has navigated the air of the South Seas and crossed the Equator, a real South Seas and crossed the Equator, a real banks of air off Newfoundland which releved the same a few years ago of the favoraged of the east-to-west hope, tried their worst with with the Bremes crew, 650th filled. The east-to-west crossing has been conquered and the filler will follow. Every passage will make the route more continued to the control of t With the successful east-to-west crossin

THE BRIDGE

THE BRIDGE

At last there has arisen a poet who has ventured to east a glamor of poetry and without a contract of the property of the property

No moken arch or westbered plers, No rother parts are left to show, The bridge that served us many years, The lower bridge built long ago.

Its mission men can scarcely boast, Paithful and true until the last, So to you bridge, I'll ask a foast, Porgotten? No, though you have pas

Let's draw a picture that will stay. Hung fast in memory's treasured vault, Long when the bridge has passed away. Let's pass again or halt.

Still yet again we'll wend our way, Over the bridge in dream. Watching the river endiess play Like a cauldron of feaming cream.

DANDELIONS

Dandellors are so plentiful and breakforth need be so plentiful and breakforth the sounder why this is so. But there need be no doubt after one reads why dandelions are so much to be found. Christorial to the saffron colored flower, whose roots have been used for a purpose other than that of the renew used for a purpose other than that of the renew and the saffron colored flower, whose roots have been used for a purpose other than that of the renew and the saffron colored flower, whose roots have been used for a purpose other than that of the renew and the saffron colored flower, whose roots have been used to be sufficiently as the saffron colored flower in the leader of the saffron owner, and the green firmament of the lawn, would cause elation in the least of a fawn owner, and the green firmament of the lawn, would cause elation in the least of a fawn owner, and the green firmament of the lawn, would cause elation in the least of a fawn owner, and the green firmament of the lawn, would cause elation in the least of the saffron owner, and the green firmament of the lawn, would cause elation in the least of the saffron owner, and the green firmament of the lawn, would cause elation in the least of the saffron owner, and the green firmament of the lawn, would cause elation in the least of the lawn, which is the saffron owner, and the green firmament of the lawn owner, and the green firmament of the lawn, which is the saffron owner, and the green firmament of the lawn owner, and the green firmament of the lawn owner, and the lawn

is included in a kind of triple alliance against it is not wanted.

"Doubtless comparatively few laws owners have that the name thandleion derives reason that the name thandleion derives gested by the appearance of what might be called teeth in the formation of the leaves. The per value will be compared to the compared to the compared to the per value will prefer the derivative, which pictures to the imagination a very small lion with a fopphi dispositation and the compared to th

SIDELIGHTS

Not an Entirely New World After All It is a wonderfully wise arrangement that

It is a wonderfully wise arrangement that things rayes—and exerywhere and not always but offen enough to establish a fairly dependable tendency. The man who said, "I shall not pass this way again" was not describing the regular, "pass this way again" was not describing the regular, "pass this way again" many, many times. A few details are different each time but the main conditions repeat. The most pass of the mother of learning. The progress of manicind would have been very alow had not the constantly returning sun and stars and easons an interesting speculation how the mind could ever have gotten hold of a leadedly flowing, growing, developing world that did not repeat the property of the progress of the property of the property of the progress of the pr

misdom, how much of the real wisdom or race can be traced to the quiet contempla of nature?

Can a man get far in adjusting himself to world he lives in if he falls to sense the ship between himself and "the others"

About his of the control of the cont

WHY YOU WILL LIKE HAMILTON BY-PRODUCT COKE

A CONVENIENT SPEEDY FUEL

Easy to control. Plenty of close comfortable heathurry if you want its-more slowly if you prefer it.

THE THOROUGHLY UP-TO-DATE FUEL.
The use of Hamilton By-Freduct Coke is increasing by lease and bounds. Its growing popularity speaks volumes for the

Every Dollar Spent on Imported Fuels Means Less Prosperity for Canada

Spend your money in Canada. It will help keep your fellow Canadians in all walks of life employed-workmen, storekeepers, professional men, your neighbors. Even yourself.

There is no need to go outside the Dominion for fuel that will give satisfaction. Hamilton By-Product Coke-made in Canada is an ideal fuel. It will save you money. And by buying it in preference to imported fuels you help to make Canada prosperous.

Sold by Dealers Everywhere

St. Paul's has had a noble memory dating back to 610 A.D. It was erected in its present form by Sit Christopher Wren shortly after the great Fire of London.

MR. BLOUNT

By Julia Johnson Davis
Two fields over from Buckland Town
Lived old man Biount, in a tumble-down.
Fall-to-pieces little house,
And no more to eat than a poor field m

Clothes all ragged, hair like straw The strangest creature you ever at A little bit off up in his head, A little "teched," the village said:

But poor old Blount thought he was clever, Cause nobody warn't goin' to trap him never, And poor old Blount thought he was wise, Cause nobody ketched him by surprise.

For no matter what you asked him to do, There was just one answer he'd give you, Just one answer, high and shrill, "Ain't sayin' I won't, sin't sayin' I will!"

He always walked with a kind of wave And his high cracked voice was all of a And as for teeth, he just had two, But nobody telled him what to do.

You'd say in an easy sort of way, "Blount, can't you help me get in my hay? And he'd just eackle, would Mr. Blount, "Ain't sayin' I will, ain't sayin' I won't."

Or, "Look here, Blount, you're getting thinner, Step to the kitchen now and get some dinner." And he'd just cackle, would Mr. Blount, "Ain't sayin' I will, ain't sayin' I won't."

Cold weather, warm weather, wet or dry, Binding the corn, or cutting the rye, Mending fences or splitting wood. Things old Blount said he did good, But ask him to do them, and he'd quaver still, "fair's sayin' I won't, a in't sayin' I will."

Ah, Gabriel, Gabriel, in the skies,
When you blow your trumpet and shout
"Arise!"
And we all stand up, you will hear Mr. Blount,
"Ain't sayin' I will, ain't sayin' I won't!"

KINGSTON IS TO BE DONORGATULAT-ED for getting into Belleville's class with a cheery smile of optimism and an attitude of Kingston's all right, God's in His heavens and all rights and the control of Standard which nails this cheery flag to lise editorial matthead in the control of the were:

KINGSTON IS PROSPEROUS

RESENTING RADIO'S NEWEST MIRACLE PHILCO TONE-CONTROL

SCREEN GRID LOWBOY

radio industry and announces a remark-able improvement in radio reception— Control of Station Tons—operated

Now, sitting quietly in your own home listening perhaps to the music of the great Phileo Symphony Orchestra—o: great ranco Symptony Orenestra—ore entertaining your guests with the livelies of dancé bands, you can bring in the pusic the way you like it, by the turn of a knob on the front of the set.

Classical music, great singers, famous artists can be heard the way you have always longed to hear them; with rich, full sonority, perhaps; or again, you may like your tone as brilliant as a brase band. You can have either or both, with Philos You can have either or both, with Philosoft Tone Control. Again, you may like your favorite dance orchestra bright, crisp, snappy or mellowed down-to match the changing mood of a party. Both are yours now, with this wonder-working device.

Speaking voice, monentous messages from our public men, can be brought in with a realism only surpassed by the actual presence. And finally for the radio stations which come in harshly or accom-panied by crackles and buzzes from interfering electrical apparatus in your particular section, you can subdue the stridency and noise, and enjoy many additional fine programs. It is the four positions of Tone Control

on the new Philos Radios which give you these marvels. At a mere turn of the knob you have reception which is "brilliant"—"bright"—"mellow"—

acep.

Each and every Phileo has balanced units which produce the true, clear Undistorted Phileo tone—new, exclusive circuits of great selectivity—wonderful distance range and power—reduction of distance range and power—reduction static and background noises—n improved electro-dynamic speaker, a new Station Recording Dial on wh u can permanently log your favorite

The Phileo Screen Grid Plus has, in addition, Automatic Volume Control, which counteracts fading, so you can not only get, but hold and enjoy, distant programs—enormous power; built-in programs—enormous power; built-in aerial—a super-radio for those who want Extra performance.

Extra performance.

These new instruments are boused in beautiful cabinets—furniture of which you can be proud, priced from \$145.00 to \$250,00." (Radios Phonograph). Philos Radios are available for operation on AG or DC electric current, or by battery. Ask your nearest Philos dealer for a first demonstration of Philos Tona Committee. demonstration of Phileo Tone Control today. No obligation of course, and casy terms when you decide to buy. READY TO COMPETE IN ENGLISH REGATTA

week to attempt to lift the Thames Challenge Cup at the historic Henney Reputia, They will have to fight attif opposition in former crack Brit kin college and school crees, but Falher Bill tright), the Kent boys cach, thinks his crew stands a good chance to win.

Don't "Cut in"!

Avoid this dangerous practice on the highway. It's an offence and a frequent cause of accidents.

> YOU needn't be travelling at an excessive speed to be classed as a reckless driver. "Cutting in" when the road ahead is not clear is reckless, even though you are driving below the speed limit.

> A fundamental of safe driving is never to pass another car unless the road ahead is clear, and there is a space in the traffic line which you can easily reach before you meet on-coming cars. If you ignore this, sooner or later you will have an accident. Traffic officers are particularly vigilant for this class of offender...

> Passing the car ahead on a curve, near the crest of a steep grade, or at any other place where the view shead is partially obscured, may result in a "side swipe". . . one of the most serious of motor accidents.

> If another driver tries to pass you, LET HIM PASS. Don't race. That's against the law, too. You may squeeze him out of a place in the traffic line. He may be caught by a car approaching in the opposite direction.
>
> If he is, you are as much to blame as the driver who tried to pass you.

> The Highway Safety Committee appeals to you, and every other user of the highway at all times to do the utmost in your power to avoid accidents. During this week-end traffic will be heavier. Do not letyour holiday enthusiasm over-ride your sense of caution.

> > Seven Rules

for Safe Driving ...
on must observe them and ALL other
precautions ALL the time

I Have your car in perfect mechanical con-dition—particularly BRAKES, STEER-ING GEAR and HEADLIGHTS.

2 GIVE YOUR UNDIVIDED ATTENS TION TO YOUR DRIVING. In passing traffic, be sure there is a place for you in the traffic line ahead.

you in the trains one anceso.

Never attempt to pass on curres steep grades.

In entering main streets or highways, in approaching a railway crossing whe a full view of the track is obscured.

NTO! and LOON.

5 When other vehicles try to p LET THEM PASS.

the rillem Pass.

When making a right turn, keep to the right of the highway; when making a laft; turn, keep to the centure.

Always SiGNAL before you slow down, slop, or change your occurs, and never BACK UP before ascertaining that the road behind is clear.

WILL CFLEBRATE CANONIZATION

After the First

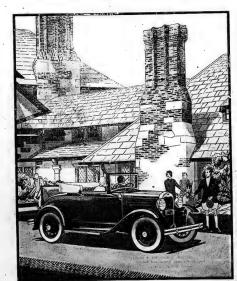

Twenty-five Thousand Miles

THE value of sound design, good materials, and careful construction is especially apparent in the new Ford after the first twenty-five thousand miles.

Long, continuous service emphasizes the mechanical reliability of the car and its economy of operation and up-keep. The passing months and years bring a growing pride in its appearance and an increasing respect for the substantial worth that has been built into it.

From every standpoint-in everything that goes to make a good automobile—you know you have made a far-seeing, satisfactory purchase. Throughout the Ford you will find many reasons for its alert, capable perform ance and many instances of value far above the price you pay.

Prominent among these are the four Houdaille double-acting hydraulic shock absorbers, shatterless glass windshield, fully enclosed four-wheel brakes, five steel-spoke wheels, aluminum pistons, chrome silicon alloy valves, chrome alloy transmission gears and shafts, torque-tube drive, three-quarter floating rear axle, more than twenty ball and roller bearings, and bright, enduring Rustless Steel for many exterior parts.

HARMFUL

HAS BEEN REMOVED FROM KOOLMOTOR Gasolene

> XCESSIVE gum in gasolene is harmful. Cities Service experts were among the first to recognize this fact - and among the first to overcome it.

Neither time, money nor effort has been spared to remove the harmful gum from Koolmotor; Gasolene, the original high test, anti-knock gre gas. A special process-the mini-gum processemployed by Cities Service to reduce the gum content in Koolmotor Gasolene to a harmless minimum

All this has been done for your benefit-to free you from the menace of sticky valves that steal your power and result in faulty engine performance and expensive repair bills.

Play safe-don't pay the penalty of gummed-up valves. Drive to your nearest Cities Service Station or dealer today for a tankful of Koolmotor Gasolene—the gas that is free from harmful gum.

A.—Three; a plano and two stringed instruments.

Q.—When should a child seat himself at the table?

A.—After the older persons are seated, never before.

IT'S VISE TO CHEVROLET CHOOSE A SIX

Chevrolet Gives You Six-cylinder Superiority with Economy Second to None

WHAT a vast difference there is between Cher-roles performance and that of any other car Cherrolet is upperior in smoothness and usince - because it has the outstanding advantage of a Sob-nerspower is crylinder motor, with a liker, Sob-nerspower is crylinder motor, with a liker, Superior in comfort and stability - due to Lovejoy hydraulie shock absorbers, front and rear. Superior in control case and security -because of fally - nuclearly, four wheel a larkets

Distinctive Appearance

And more striking in appearance! Because combination with its features of finer performance, Chervolet offers new, roomice Flab hodies with lavishly appointed insteriou upholstered in richer, more durable plush specially designed bright-work, chromium plate

Unsurpassed Economy

Unsurpassed Economy

Nove all, superior in downright value! Because with all the above advantages, Chervolet is offered at a price extremely low—and the Chervolets is just as economical—it costs no more foreigns, for oil, for tires, and for service. See your nearest Chervolet dealer. Ask him about the General Motors Owner. Service Folley, the most complete in the industry. and the C.M.A.C., General Motors. own Deferred Pryments Plant.

CHURCE ARMY IN MOTOR VAN

Interest in Their Work

Alarge motor van which has been appearing frequently on Belleville streets has excited the curiosity of citizens. The van is lettered with the

imbs and sticks and often construct homes weighing nearly a ton.

When you go to sleep your feet aut matically becomes heavier and your matically become

Arash-askin sore DID has no rival in the treatment of sign disorders. A doctor's formula that doctors recomment. An active fuld that destroys the disease germs in the skin. DD cooks, soothes, beals. The blensjabger skin in waxied clean.

GOODYEARS EXCEL

In the TWO Main Parts of a Tire

Press the palm of your hand down on the Goodyear All-Weather Tread and feel how the deep-cut sharp-edged blocks under pressure grip and pinch the flesh. That is what the Goodyear Tread does on the surface of the road, and why it has superior traction.

THERE are two main parts of a tire—the tread and the carcass. Goodyear Tires excel in both!

There is greater traction in the Goodyear All-Weather Tread. There is greater vitality in the Goodyear Supertwist carcass. What proves this? These two tests.

These advanta in Goodyear Tires cost you no more; yet they are indis-pensable to the nost enjoymen

Have us show you on our cord-testing machine the greater stretch in Goodyear Supertwist Cord over standard cord. This extra stretch gives the Goodyear Supertwist Carcuss its unmatched vitality, enabling it to withstand road-shocks and continuous flexing.

VUMPED TRAIN FELL TO TRACK

THE COURSE OF EMPIRE

The Course of Empire westward moves From Eastern Dawn of Life and Time Towards the setting sun and proves The skilfulness of plan Divine.

The might that once ruled Asia's plains The triumphs brought to Roman hills, And clank of cruel Venitian chains, The early hour of Record fills.

As Time's long day through ages crept Gay Spain and Holland rose in power, But as their rule declined and slept Came French, then Britain's zero h The sun rose high when fleur de lis And roses, heather, crossed the sea To add their beauties to the day

They're ours to love, to cultivate, To blend their glories into one, So tarry not! The hour is late! The work is ours and must be done

The Course of Empire points our way, The Course of Empire points for way,
To Canada the sceptre hands.
It will be hers in Peace to sway
If we but heed Divine commands.

LEAFS MOVE INTO THIRD POSITION

feat Royals Twice in After noon the First Game Going 11 Innings

MONTREAL, June 30—The Royals aturned home from their long road fip yesterday morning and a great morned of nearly 20,000 fans turned ut at the stadium in the afternoon make it a day of rejolding, but they excluded not with the Toronto Maple

Leafa.

Serve O'Neill's men took_look ends
of the double-header, 150° first game
11.10 in 11 mains, the second 11.00 in 150° first
seven, innings, and prestly to the disseven the local eitherny pushed the
Roysts out of third place.

The double victory was must opporsame for the Leafa in view of the fact
that the Seder, Baltimore and Rochester, divided their double bills.

Relief from Ashma. Who can de-Relair from Ashima Who can describe the complete relief from suffer-sing which follows the use of Dr. J. D. and the consequence of Dr. J. D. and the consequence when the soft and qualte influence re-lieves the tightened, chooling air tubers of the past for thousands. If he made a sufficient a thing of the past for thousands. If here raise, lood drugstate verywhere have sold it for years.

STABILITY **EXCEEDING** ALL OTHERS

> HYDRO-ELECTRIC Power is an ever-increasing public necessity. Even in periods of depression, demand has been greater than supply.

Because of its essential nature, the power industry in Canada has had phenomenal growth since the war. Development has more than doubled; consumption has tripled and total capital investment has increased to over one billion dollars.

The great investment strength of the industry is well described in a report issued by the Dominion Government, which states: "The record of stability of Canadian water-power investment far exceeds even that for banks, railways and municipalities."

Summer Activities Call for Intensive Advertising

The season that develops a multitude of new wants and makes insistent demands on everyone for the goods and services necessary to the enjoyment of its varied delights.

Hot weather foods and cooling beverages
— Summer frocks and garden equipment —
bathing suits and sunburn alleviatives—sports
clothes and furnishings for the Summer cottage — gasoline and spare tires.

And these in addition to people's normal all-year-round buying activities. For family larders and wardrobes need replenishing fully as much in July as in December. Youthful couples buy and furnish homes in August as well as in February.

Astute advertisers do not cut down their advertising when the mercury goes up. They realize that Summer, which brings Canada its \$300,000,000 tourist industry, also brings them sales opportunities afforded by no other season of the year.

And they know that the quickest, most economical means of capitalizing these opportunities are the advertising columns of the daily newspapers.

The Daily Newspapers of Canada

This Advertisement is Sponsored by the Canadian Daily Newspapers Association
